Subject: Amendment comment

Regarding:
12-97-0027. This project is being implemented by IDOT's District 1 Division of Highways. It will increase the number of lanes on I-55 from 4 to 6 from Naperville Road to just south of US 6. The project is 14.66 miles in length and currently scheduled for completion in 2012. The proposed change moves the completion year forward to 2008.

Comment:
Numerous studies have been done which show that the more capacity roads provide, the more traffic problems that will ensue. The Plainfield area and west Joliet is already crowded with 'sprawl' developments, there is no need to encourage or improve the methods of automobile traffic in the area. Better that they be encouraged to take the Metra or Star Line and move those projects up in the pipeline on timing.
